ABOUT ME

Hello! I'm Kutay Avcı, a passionate, dedicated and new graduated full-stack developer. I enjoy tackling complex problems with innovative solutions and embracing new challenges. I thrive in fast-paced environments, am a quick learner, and value teamwork and effective communication

EXPERIENCE

Software Assistant Specialist | LC Waikiki

📅 04/2022 – 03/2023 📍 Izmir, Turkey (Remote)

- I worked as a junior full-stack developer in one of the biggest retail companies in Turkey.
- Technologies : C#, Angular, TypeScript, JavaScript, HTML, CSS, DevExpress, .NET, SQL Server, Git, Agile Scrum, Rest Api and T-SQL

Full-Stack Developer | Qazrest

📅 03/2023 – 09/2023 📍 Izmir/Turkey (Remote)

- I worked as a full-stack developer at a restaurant automation system start-up project named Qazrest, based in Kazakhstan.
- Technologies : C#, Angular, TypeScript, Electron, JavaScript, HTML, CSS, GoLang, .NET, PostgreSql, Redis, Git, RestAPI, Entity Framework, Docker, AWS and RabbitMq

EDUCATION

Computer Engineering | Ege University

📅 2018 - 2023 📍 Izmir, Turkey

- GPA: 3,11

PROJECTS

E-Commerce Web Site | 🌐

📅 06/2021 – 07/2021

- https://www.endecokertme.net
- We developed a full e-commerce web site with a friend for a freelance job.
- Technologies : HTML, CSS, JS, MySql and PHP Laravel framework.

Thesis Project | 🌐

📅 09/2022 – Present

- https://www.videfeed.com
- We developed this project as a joint undergraduate thesis with a friend. After graduating, we are still continueing to enhance the project. VideFeed is a social media platform that unites other social media platforms' top trending contents in one website. Additionally, the website provides users with a personalized feed using a cross-platform recommendation system.
- Technologies : Vue.js, Node.js, Express.js, MySql, Python, Selenium, BeautifulSoup4, AWS(EC2, S3, Load Balancer, CloudFront, RDS)
